Principes directeurs

Les principes suivants ont contribué à façonner notre cadre stratégique et se refléteront dans nos actions.

Miser sur la promesse que représente chaque enfant

Tous les enfants naissent avec un certain potentiel. C'est à la société de permettre à tous les enfants de le réaliser. Nous ciblerons et poursuivrons des objectifs qui favorisent la santé et le développement de chaque enfant et adolescent.

Garantir l'accès aux soins

Les enfants et les adolescents ont besoin de soins de qualité au bon moment et au bon endroit. Nous nous emploierons à éliminer les obstacles aux services et traitements essentiels, qu'ils soient d'ordre financier ou autre.

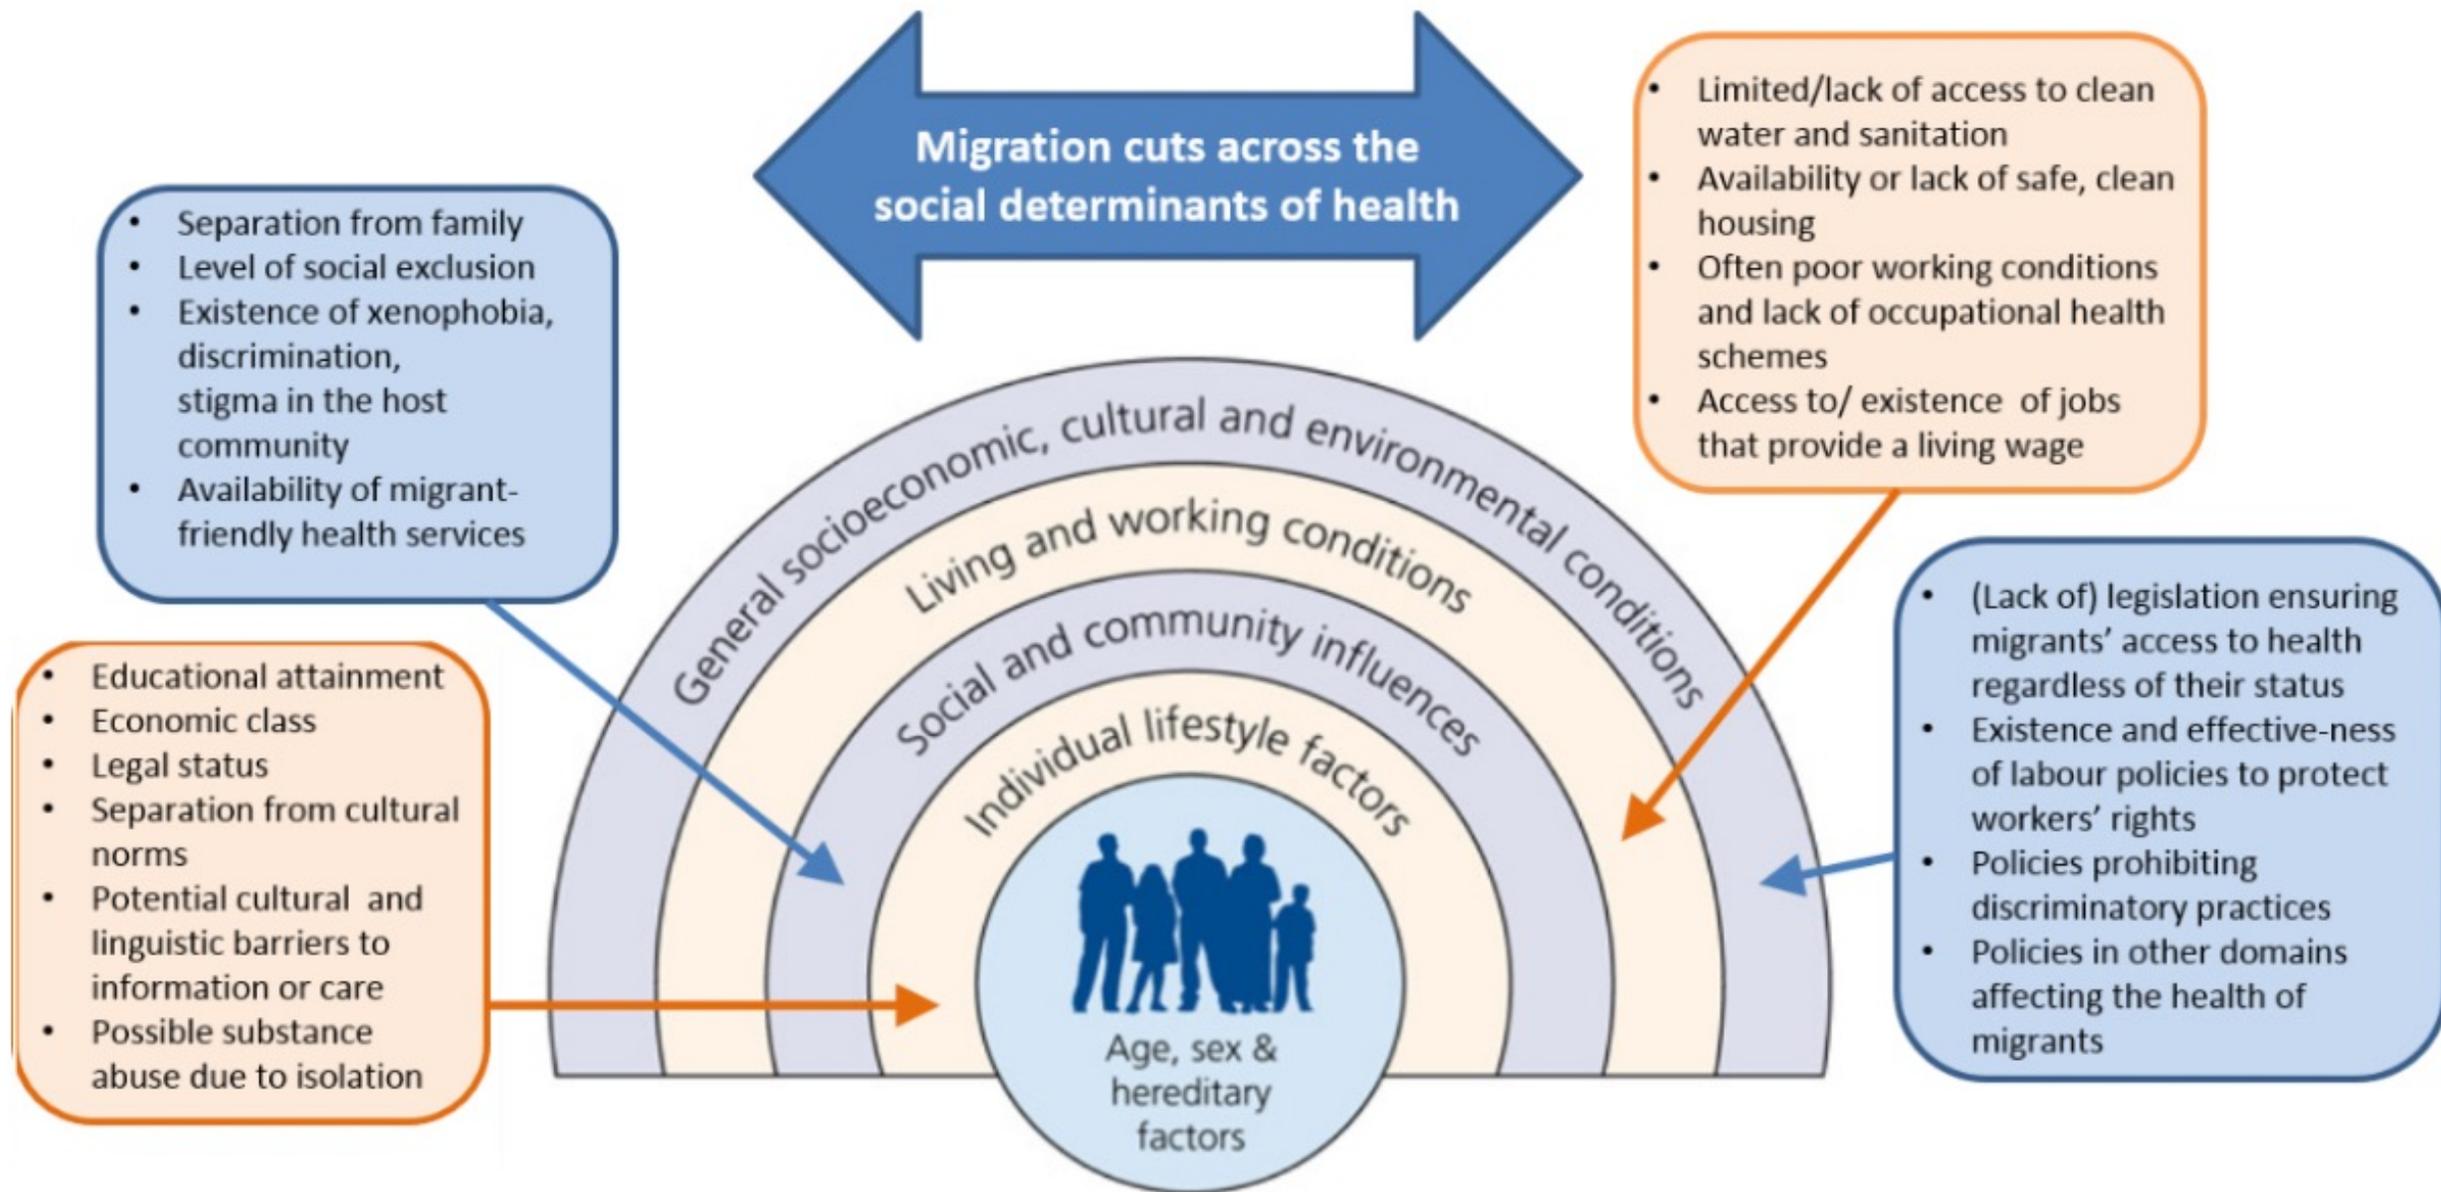

Parvenir à l'équité

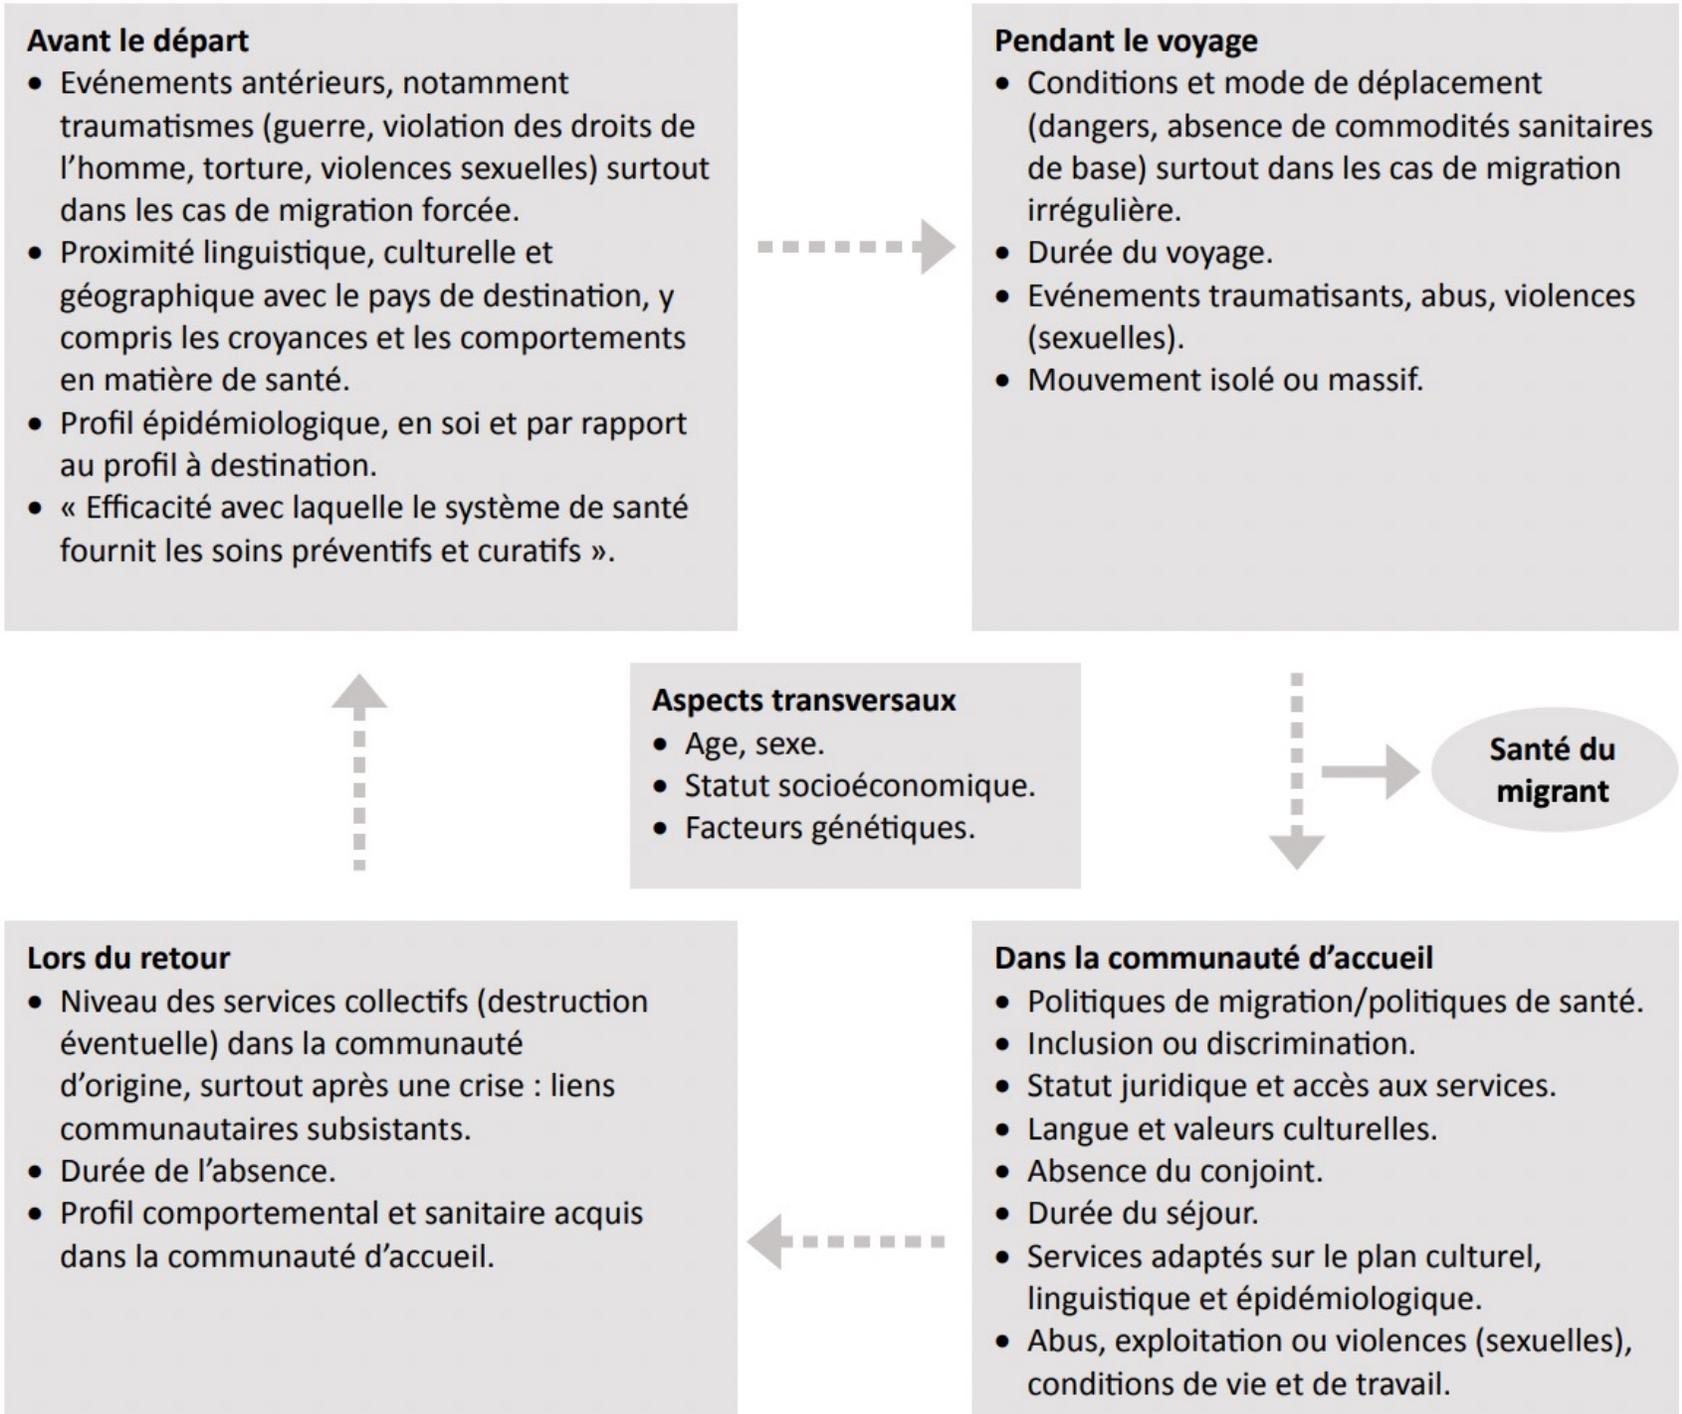

Les conditions de vie d'un enfant ne devraient pas entraver sa croissance, son apprentissage et son développement. Nous nous emploierons à assurer l'équité pour tous les enfants et les adolescents, quels que soient leur origine et leur lieu de résidence.
